

Hockey

CoolDRY 160g is a high performance fabric suitable for everything sport can throw at it. The fabric has been designed to move moisture away from your body. The specially treated material has been developed to keep the athlete cool and dry. It is also extra strong for any body contact and will keep its shape.

POLYESTER LYCRA 220g - Developed for dresses, skirts and skorts, polyester lycra is perfect for hockey. The smooth silky finish allows ease of movement for the athlete.
